"A LACK OF PRUDENCE"

"In some respects I think there has been a lack of prudence in business management since the armistice of 1918. I refer especially to prices. There seems to have been a disposition on the part of large numbers to ask and accept the highest prices which could be obtained."

This cautious admission by Judge Gary, head of the United States Steel Corporation, merely corroborates what every open-eyed observer of business conditions knows to have been the case in recent years. It is merely a mild way of saying that business men in many lines of business perhaps in most lines, have got into the habit of charging "all the traffic will bear."

Not that most, or many, of these business men have been deliberately setting out to cheat the consumer. It is rather a case of class psychology. In the confusion of war-time and the deluge of war prices, big profits suddenly became easy. The most selfish men took full advantage of the situation, and the rest trailed along with them and followed the example they set. Thus a new, swollen, fictitious standard of profits came into vogue.

Labor did the same thing, according to its ability, though it got a slower start, and has not yet accomplished so much in the way of profiteering. Labor will probably break even in the end, though. For workmen will still be getting high wages for some time after business men have had their swollen profits squeezed small by the inevitable reaction.

That reaction has already begun. Higher wages are one form of it. When workmen saw how much their employers were making, they insisted on having their share. The consumer-worm is turning, and will no longer pay high prices willingly. Increased production too, is lowering prices through competition. In the end, business in general may be worse off than if it had not shown this "lack of prudence," but had charged fair profits all the time.

SELFISH NEW YORK.

New York City has protested to the Federal Shipping Board against the diversion of some of the nation's export shipping to other seaports. She also objects strongly to the deepening of the St. Lawrence and making it a more adequate outlet for Canadian and American commerce.

New York's motive is simple. It wants to monopolize the country's ocean shipping. The desire is comprehensive enough, and, in a way, pardonable. Cities, like nations, are seldom unselfish where economic interests are concerned. Where is the city, big or little, that would voluntarily give up any of its business?

But here is a situation that demands distribution. The metropolis cannot handle all the nation's Atlantic trade. Her water front is congested, her railway terminals are inadequate, her harbor is always crippled by labor troubles, her charges are necessarily higher than those of many other seaports.

And even if New York were able to take care of everything it is not for the country's best interest that its foreign trade should thus be concentrated in one port as it has been to so great an extent in the past. It robs other ports of their due share. Worse still, it prevents the development of a system of outlets and inlets to serve the needs of the various sections.

The more seaports and the better access to them the country has, on the Atlantic, the Gulf and the Pacific, the better it will be for the country. New York will have to recognize the fact, and reconcile herself to giving up more foreign business hereafter than she is naturally qualified to handle.

Of course, the Republican party is responsible because woman's suffrage is not a fact. Only 29 Republican states followed the example of six Democratic states in ratifying the amendment.

Remember your dead. W. S. Cook and Co. Monuments with Lawrence Frye Funeral Director. 208tf

OPERATORS REFUSE TO SEE UNION LEADER

Coal operators of the Pittsburgh district, on Wednesday, refused a request of John I. Lewis, international president of the United Mine Workers, that a joint conference be held to consider the mining situation. The operators regarded Mr. Lewis' request as an invitation to reopen the recently concluded wage negotiation.

Mr. Lewis, in his telegram to the operators, urged the present spread of unauthorized strikes of miners in the west as a reason for a conference. The operators hold it is the duty of the United Mine Workers' organization to keep their men at work under their contracts. The operators declare that unless contracts made with organized labor can be enforced they believe it useless to make them. The predicament of the United Mine Workers lies in the spread of radicalism among the members, it is declared, is a thing which the operators have no means of dealing other than by strikes.

Increases of wages beyond the rates fixed in the contracts, and this as a remedy has been found worse than useless. So far the Pittsburgh district has not been affected by any strikes, and operators hope the men will abide by their contracts.

However, it is assumed the Poles will keep one finger on the trigger while that armistice parley with the Bolsheviks is on.

Bobby Leach, who got away with it once, is to go over Niagara Falls in a barrel, advertising a steel company's product and a concrete skull.

It is interesting to note, in reference to presidents from Ohio, that not one was a Democrat.

What has become of the fellow who was going to permit himself to be shot to the moon in a rocket?

These are the days when the hardest hand wonders what Wilhelm saw in a place in the sun to recommend it.

It begins to look as though we were trying to make up by staying in the war the time we lost by staying out.

And nobody thought to ask Sir Tim what he thinks about home rule for Ireland!

Skirts will not be shorter, says a fashion note, and man is disappointed again.

Debs' adherents have no cause to fear he will change his position during the campaign.

Camphor And Witchhazel Help Weak Eyes

Charlevoi people are astonished at the quick results produced by simple witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. In one case of weak and nearsighted eyes a few days use brought great improvement. In another case it stopped eye pains and inflammation. We guarantee a small bottle of Lavoptik to help ANY CASE weak, strained or inflamed eyes. Aluminum eye cup FREE. Hemmings' Drug Store, corner Fifth and McKean avenue.

First Class French Dressmaker.
Mrs. C. H. Doick, 928 McKean avenue, phone 106-R. 45-tf

SUB-DISTRICT RALLY AT BENTLEYVILLE

A Monongahela Sub-District Rally of the Epworth League will be held in the Bentleyville M. E. church, Friday, August 6, 1920, beginning at 2:30 o'clock, slow time. J. H. Pearson will be the musical director, and the afternoon exercises will begin with a Junior praise service, led by Olive Tunnecliffe, followed by a Junior exhibition; a duet by J. Bentley Greenlee and Edith Piggie; a talk by the Rev. George Payna, of Houston, Pa.; the election of officers and will close with a social hour.

The evening service will open with a praise service led by Mrs. Anna Potter, followed by roll call and awarding of the banner; a solo by Jos. H. Pearson; installation of officers by Jos. H. Pearson; musical address by Rev. Wm. Hoge of Clairton, and the rally will close with the benediction.

Fiction Concerning Sargossa Sea.

The Sargossa sea in the north Atlantic is an area through which no ocean currents pass. It is comparatively still water, forming a sort of eddy into which seaweed tends to drift. Writers of fiction have held that the dead ships of the ages have found resting places in this eddy and have peopled them with the spirits of lost mariners. The idea is pure fiction. The Sargossa sea may be navigated without experiencing any difficulty with seaweed and without seeing a derelict.

Notice To Contractors

Sealed proposals will be received by the Controller of Fayette County, Pa., at his office in the Court House, Uniontown, Pa., and by the Controller of Washington County, Pa., at his office in the Court House, Washington, Pa., until two o'clock, Thursday, Aug. 12, 1920, and to be opened in the office of the Fayette County Commissioners at their office in the Court House, Uniontown, Pa., Friday, August 13, 1920 at 11 o'clock a. m., for the lifting of the old plank flooring with long leaf yellow pine 3 inches thick 18 feet long of a grade to meet the specifications, all treated with 12 pounds of creosoted oil per cubic foot of lumber, to be placed on top of the boards that are already in place, cleaning and replacing old block, furnishing and placing any new block that may be required, and resurfacing same with asphalt on the Speers-Belle Vernon Bridge over the Monongahela River between Fayette and Washington Counties.

Specifications and proposals for the above improvement can be secured at the office of the County Road Engineer of either County, at his office in Uniontown or Washington, Pa., upon the deposit of five (\$5.00) Dollars per set. All bids to be in duplicate, one copy to be filed in the Controller's office of each county.

The proposal filed in the Controller's office of Fayette County shall be accompanied by a certified check drawn on a National Bank or Trust Company in good credit in Pennsylvania equal to ten (10) per cent. of the amount of the proposal, made payable to the Treasurer of the Counties of Fayette and Washington.

The right to reject any or all proposals is expressly reserved.

Earl Huston,
Controller Fayette County
T. J. Underwood,
Controller Washington Co.
July 29-Aug 5-12

Clean-up Sale Ends

Saturday of this week will mark the close of our first Clean Up Sale. It has been a very gratifying sale to us, in moving many odd lots; and to the public, in being able to secure merchandise of first quality at low prices. There are, however, a few items of exceptional value left that will remain on sale until Saturday evening only and prices next week will not be as low as present sale prices. Do you need

36 in. Bleached Muslin at yd.....29c
36 in. Unbleached Muslin yd.....25c
Fancy Printed Voiles, yd.....49c and 79c
Heavy white Flannelette, yd.....29c
Heavy bleached Table Damask yd.....\$1.00

Turkish Towels, large sizes, each.....69c
Misses' black fine ribbed hose, pr.....29c
Boys' black heavy ribbed hose, pr.....32c
Ladies' black lisle Burson hose, pr.....45c

Ladies' Georgette and Crepe de Chine Waists
25 per cent off

Ladies' Dressing Sacques each.....79c
Ladies' gingham porch and street dresses each \$4.25
Ladies' organdy and voile dresses at\$12.50

Many other items that will prove to be worth your while to come in and look over.

Fau Dry Goods Company

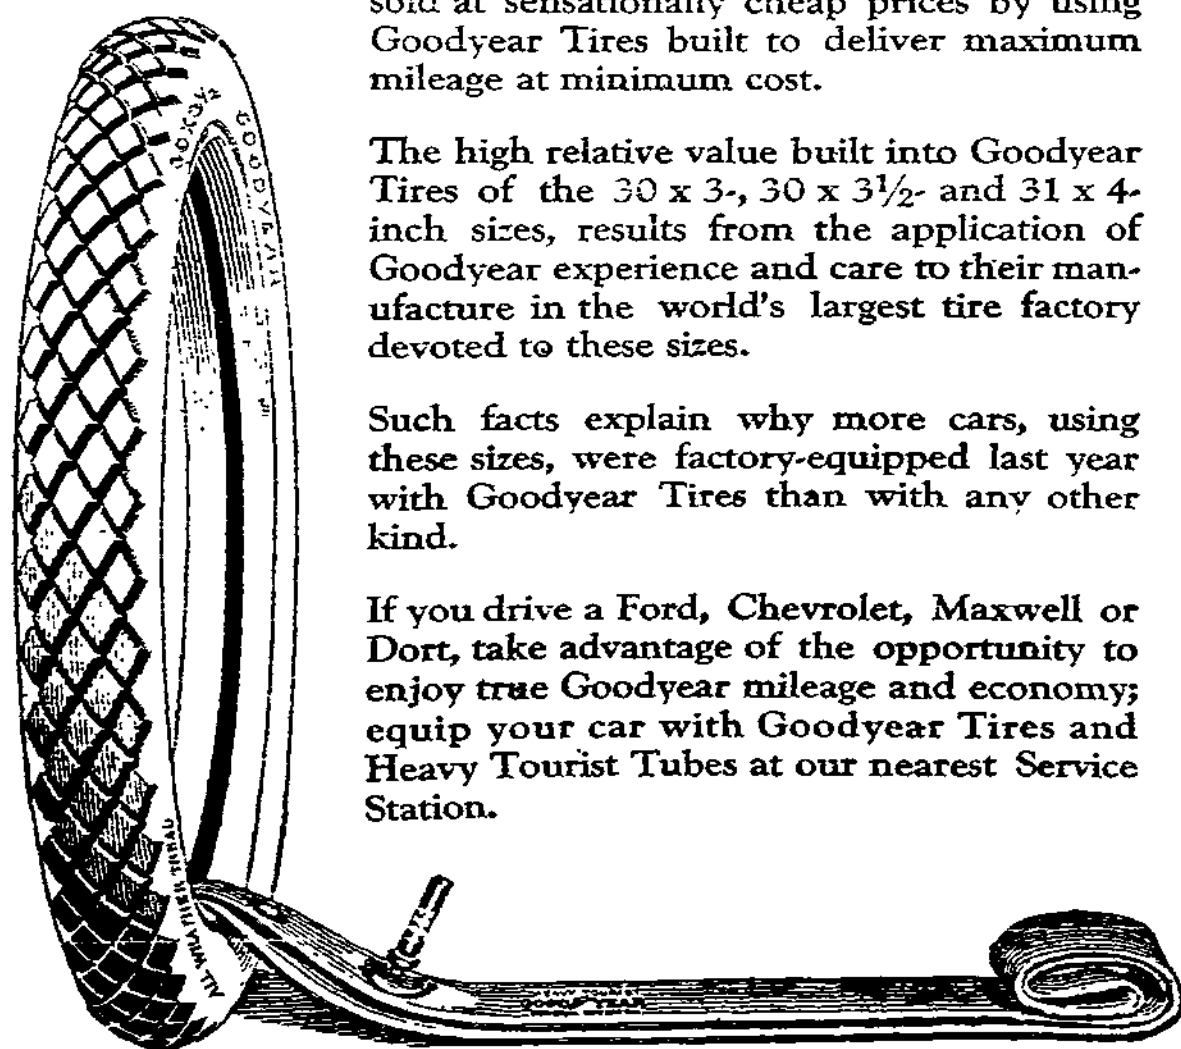

Save Money—Put Goodyear Tires on Your Small Car

Avoid disappointment with tires made to be sold at sensationally cheap prices by using Goodyear Tires built to deliver maximum mileage at minimum cost.

The high relative value built into Goodyear Tires of the 30 x 3-, 30 x 3½- and 31 x 4-inch sizes, results from the application of Goodyear experience and care to their manufacture in the world's largest tire factory devoted to these sizes.

Such facts explain why more cars, using these sizes, were factory-equipped last year with Goodyear Tires than with any other kind.

If you drive a Ford, Chevrolet, Maxwell or Dort, take advantage of the opportunity to enjoy true Goodyear mileage and economy; equip your car with Goodyear Tires and Heavy Tourist Tubes at our nearest Service Station.

30 x 3½ Goodyear
Double-Cure Fabric,
All-Weather Tread, \$23.50

30 x 3½ Goodyear
Single-Cure Fabric,
Anti-Skid Tread.... \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30x3½ size \$4.50 in waterproof bag.....

GOOD YEAR

Get Them from Us

When you buy your next Goodyear Clincher Tires whether in

The Double-cure All-Weather Tread or the Single-cure Anti-Skid Tread

It will be well worth your while to consider seriously from whom you will buy these tires.

Of course, they are good tires whether you buy them from us or from someone else—but we simply want to call to your mind the fact that this

company is as well known for the good service it gives as it is for the good tires it sells.

Sizes 30x3, 30x3½ and 31x4.

Other sizes and types in stock.

THE CHARLEROI MAIL

VOLUME XXI—NO. 46

CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA THURSDAY, JULY 29, 1920.

TWO CENTS

COUNTIES PROPOSE TO PUT NEW FLOOR IN BELLEVERNON BRIDGE

Are Now Advertising For Bids To Put Structure In Good Shape

IMPROVEMENT BADLY NEEDED

The Controllers of Fayette and Washington counties are advertising for bids for re-flooring the Belle Vernon river bridge. Sealed proposals will be received by the above officials, at their respective offices in Uniontown and Washington, until Thursday, August 12, 1920, and which will be opened the following day, at the office of the Controller of Fayette county in Uniontown.

The specifications call for the lifting of the old plank, re-flooring with long leaf yellow pine, three inches thick and 18 feet long of a grade to meet the specifications. All treated with 12 pounds of creosoted oil per cubic foot of lumber, to be placed on top of the boards that are already in place, cleaning and replacing the old block, furnishing and placing any new block that may be required, and re-surfacing the same with asphalt.

Specifications and proposals for the above improvement can be secured at the office of the county road engineer of either county, in Uniontown or Washington, upon deposit of \$5.00 per set.

The floor of the Belle Vernon bridge has been in bad shape for some time, and fear has been expressed recently that some accident might occur that would prove disastrous. The floor has been repaired from time to time, but the heavy traffic of late months, and particularly on the part of heavily laden coal trucks, has had its effect on the structure, until it has reached the point where a new floor is an absolute necessity. What it will cost to make repairs according to specifications is a matter of conjecture at this time, but no doubt it will be quite a high figure. However, it is a repair job that must be done some time soon, and the officials cannot allow the costs to stand in the way, if they are at all within reason. If the contract is awarded it will also be a question as to whether the structure will have to be closed to traffic, or whether regulations can be established whereby the structure can be used while repairs are under way. These are matters the county officials will take up with the successful bidders.

RUSH FUEL OIL TO GARY TO HALT SHUT DOWN

While this district has plenty of coal to take care of all its industrial needs, it was necessary for the United States Steel Corporation to rush thousands of gallons of fuel oil to Gary, Ind., on Wednesday to avert a paralysis of industry there, by a coal shortage which threatened to throw many thousands of men out of employment.

MOURNS LOSS OF BARREL OF WHISKEY

A certain club in Donora is said to be mourning the loss of 35 gallons of bonded whiskey, syphoned out of a barrel almost under the nose of the members. Who got away with the liquor is the question just now agitating the members, and to make matters worse it is said the losers are in no position to make complaint to the authorities.

MILL YARDS PILING HIGH WITH PRODUCTS

Within a very short time the Donora mills may be forced to shut down and suspend operations until such times as there is an improvement in the car situation on the railroads. At the present time, the Donora mills, like many others throughout the country, has its yards filled with finished product, which has been piled in every available space because of lack of cars to ship it to market. Those in touch with the situation say it looks as if there might be a shutdown along about the first of September, at which time the mills would no doubt take advantage of the situation to do a lot of much needed repairing.

The mills in this section are fortunate in one respect, their proximity to the mines has enabled them to carry large stocks of fuel, thus permitting them to keep their furnaces going, their greatest problem being one of shipping finished products to market. At the present time there is about 200,000 tons of this product piled up in yards, valued between \$150,000,000 and \$200,000,000. The mills are not suffering from a lack of orders, as the Steel Corporation has at the present time at least 11,000,000 tons of unfilled orders on its books. What the mills are hoping for is a modification of the present priority order which sends all open cars to the mines for loading.

NAVAL RECRUITING OFFICER IS ON DUTY

The U. S. Navy Recruiting Officer C. H. Liston, will be located at the postoffice (second floor) all this week for the purpose of enlisting desirable young men for the navy. Applicants must pass a physical examination and be sound mentally and physically, and between the ages of 17 and 35 years. Each enlisted man can choose one of fifty-five trades, at good pay while learning, and pay double after graduation. Men enlisting now can go on the cruise to foreign parts this winter.

Picnic and Outing, auspices of I. A. S. Eldora Park, Sunday, August 1st, 1920. Prizes given for Races. Everybody welcome. 46-47

Suspects Arrested At Gary For Payroll Robbery At Vesta

Two more of the men alleged to have been implicated in the robbery of the paymaster of the Vesta mine near the Richeyville shaft, one mile southeast of Beallsville, are now believed to be in the custody of officers of the law. These arrests occurred on Tuesday at Gary, Indiana, when Aleck Trasiach and Phillip Doriduk were taken into custody by officials of that city. Officers of the Vesta Coal company left yesterday for Gary to secure the prisoners and bring them back to Washington county.

The two foreigners arrested at Gary are the men for whom the officers have been searching since the robbery. They are known to have resided in Pittsburgh, and their haunts

were watched without any results. Trasiach and Doriduk were "buddies," and are known by the officers to have always traveled together and secured employment in the same place. They are said to have been employed for a time in the Vesta mine near Richeyville, but to have given up their jobs in June. The fourth member of the gang is still at liberty.

The two men now under arrest are said to have admitted their identity and expressed a willingness to return to Pennsylvania without extradition proceedings. Julius Carzone, another member of the bandits is already in jail at Washington, having confessed his part in the robbery.

PASSENGER HAS AN ARM BROKEN

C. E. Cooley, of Reliance, Virginia, a traveling salesman, had his left arm broken in four places on Monday afternoon while riding in an auto bus between Donora and Monessen, when the bus was sideswiped by a Pittsburgh Steel Products truck.

The accident was peculiar and the result of the failure of the authorities to clear the road of the numerous slides that have congested the traveling space. The bus was going to Monessen, and Cooley was riding next to the side hit by the truck, with his arm hanging out. The truck in attempting to pass the bus skidded and scraped the side of it, catching Cooley's arm in such a way that it was broken. The injured man was taken to the hospital at Monongahela for treatment.

BANK IDENTIFIES ITS STOLEN BONDS

A telegram Wednesday morning from Cashier J. F. Boyer of the First National Bank of Finleyville, which was looted by bandits on May 24, announced that Benjamin and David Davis, who were arrested while trying to dispose of \$37,000 worth of the stolen bonds, has been held when arraigned for a hearing in Detroit. Cashier Boyer's message stated that the entire amount of bonds had been recovered. Detroit officers are working on the case with the hope that they will be able to secure further evidence and eventually round up the bandit gang responsible for the crime.

MCILVAIN TEAM WINS THE SECOND GAME

The McIlvain team of Charleroi won over the Page Steel at Page park, Monessen, last evening, by a score of 5 to 2. McIlvain and Brown were the opposing pitchers. A large crowd witnessed the game. The next game of the series will be played on Saturday, in Monessen.

Lawn Fete under Auspices of E. C. Dames of Malta on the lawn of E. C. Baird, Belle Vernon, Thursday July 29. Everybody welcome. 45-46

ACCUSE BANKRUPT OF FALSE OATH

W. J. Hickey of Charleroi, was held under \$1,000 bail for the November term of Federal Court on Wednesday by the United States Commissioner in Pittsburgh, on a charge of making false oath in filing a voluntary petition in bankruptcy in the United States District Court. He is accused of omitting from his list of assets notes for \$500 received from his son, Ellsworth H. Hickey in part payment for an automobile. The petition in bankruptcy is said to have been filed after a \$3,000 judgment was found against Hickey in the Washington county court in favor of a man injured by an automobile driven by Hickey.

COUNTY GIVES \$1,000 TO HISTORICAL SOCIETY

The county commissioners have appropriated the sum of \$1,000 for the use of the Washington County Historical society. This amount is to be applied to current expenses of the society and the award is made in accordance with the provisions of the act of assembly approved the 1st day of May 1919.

The second "stag" picnic of Charleroi Lodge, No. 494, B. P. O. E. will be held at Oakland Park, Tuesday, August 3, beginning at 2 o'clock in the afternoon.

Mrs. Margaret Grant of Finleyville has announced the engagement of her daughter, Bernice, to Clarence Pelkey, of Charleroi. The wedding will take place August 2nd.

The Motorcycle raffled last week at the Monessen carnival by the Veterans of Foreign Wars was won by No. 8,008. Holder of the winning ticket will call at Albright's Cycle Store. 43-43*

O. E. Schultz, traveling manager of Monongahela, leaving Tuesday evening for New York to attend a meeting of the Board of Traffic Managers.

Railroads, paying employees 20 per cent more, seek 50 per cent freight rate raise. That's fair enough.

LAKE ORDER IS THE CAUSE OF TWO PRICES FOR COAL

MUST HAUL CEMENT A LONG DISTANCE

The contractor on the highway between Monongahela and Donora is compelled to haul his cement from the Universal plant across the river from Duquesne in order to keep the work under way. There remains but a small portion of the road to be completed, and unless held up in his cement supply, ought to complete the contract within the next few weeks.

MEDICAL INSPECTORS HAVE BEEN APPOINTED

Medical inspectors for Washington county were appointed on Wednesday by Dr. Edward Martin, state commissioner of health. The inspectors will have charge of the health work in the public school during the coming term and this work promises to be more detailed than heretofore by the additional instructions in food values. In co-operation with the state department of public instruction, health work is going to be one of the first steps in importance in school work during the year. Among the appointments are, Dr. J. W. Hunter of Charleroi for Dunlevy, North Charleroi, Speers, Long Branch and Twilight, Dr. A. N. Booth of Bentleyville will have Fallfield township in his district, which includes in addition Beallsville, Bentleyville, West Pike Run and West Bethlehem. Dr. Faddis of Charleroi will have charge of Roscoe, Stockdale, Elco and Allen township.

FIND MANY TRUCKS CARRYING OVERLOADS

Officials of the State Highway Department on Wednesday made an inspection of the McKeesport and Versailles district with reference to the loading of trucks. Out of 48 trucks inspected 40 were found to be overloaded, some of them as high as two tons more than the law allows. Most of these trucks were overloaded with coal. It is the purpose of the department to take drastic steps against this practice. The overloading of trucks, it is pointed out is chiefly responsible for the destruction of improved highways. Mr. Glass, the inspector, also said the answers of accused drivers indicated there was a system of cheating the state in the amount of the license fee, where the truck was registered to carry a light weight, but carried twice as much. It was intimated that heavy loaders were carrying as much as their engines would pull.

I will collect rent, positively in advance and guarantee no vacancies. Clyde B. Cope, Real Estate and Insurance, 315 McKean avenue. 21-21*

One Price Quoted For Tidewater And Another For Lake Shipments

DON'T WANT UNSCREENED COAL

Order No. 10 of the Interstate Commerce Commission, carrying with it drastic provisions for shipment of coal to the northwest, and its enforcement in the Connellsville region and along the line of the Monongahela Railway, is having a somewhat peculiar effect on market conditions in the affected sections.

While the eastern market remains at peak level with quotations up to \$12.75 prevailing at the mines for tidewater shipments, operators and jobbers are not being able readily to dispose of their percentage of lake shipments in that market. There are therefore two very distinct prices for coal prevailing in that market with from \$5 to \$6 variance between the peak eastern market and the forced lake market.

To the best of their ability operators in the Connellsville region and along the Monongahela Railway district are attempting to comply with the order as it is interpreted to them, and the percentage of coal from the above districts are going forward as per orders issued by the government. Thirty per cent of the coal being produced along the Monongahela is consigned to the lake ports, and this shipment amounts to about 65 cars per day. The Pennsylvania has not yet received any percentage and its production is proceeding along former lines.

One of the peculiarities of the situation as regards the Lakes is that the forwarders there do not seem to be any more anxious to receive coal from the Connellsville region than shippers are to send it to them. An explanation of that attitude may be found in the fact that coal from the Connellsville district is essentially coking coal and is mined fine as a rule. Fine coal is not desired by lake forwarders. The lake market from that district in the past has required all coal to be screened, but in this instance, with shipments forced, operators are not disposed to screen coal, considering the price which it is carrying at the lakes.

DANGERED WORKER HAS CHARLEROI RELATIVES

Miss Margaret Owens, the Pittsburgh girl who is in the stricken city of Adana, Turkey, facing starvation is a niece of Thomas Owens of Sixth and Crest, and is well known to many people in Charleroi. Miss Owens is a worker in the American Near East Relief work, and has been in Turkey since last December. Previous to that time had served in Y. M. C. A. work with the A. E. F. and on the Rhine.

Joseph Connell has returned home after visiting relatives at Toledo and Niles, Ohio.

FOR PARTICULARS

NATIONAL PIKE WAS OPENED ON TUESDAY

The National Pike, along the Oak Hill estate, west of Uniontown, closed to traffic since last fall, was opened to traffic Tuesday morning, final inspection having been made of the paving job done under the contract by Wallace Miller and E. C. Cornish for the State Highway Department. The repaving of that portion of the pike was commenced last fall, and although there was 4,200 feet of road to be built innumerable delays were encountered. The job will cost the highway department

between \$55,000 and \$58,000.

Built of sand, concrete and brick the road has been pronounced one of the best in the state. It is twenty-four feet wide with a six inch curb. The concrete was laid on a five inch bed of sand. On top was laid the surface of vitrified brick. A final dressing of cement was placed on top of the bricks, moulding the paving together in a uniform, solid surface.

PUSHING WORK ON DONORA'S NEW SCHOOL

Determined to put through the contract for the new school building at Donora, the Donora Lumber company is hauling cement from the Universal plant, opposite Duquesne

by truck, to Donora. By this means the contractors have seen to it that work on the foundations of the structure is kept moving. In procuring of other material for the building some difficulty is anticipated and the work may be held up from time to time, but it is the hope of the contractor to have the building ready at the time contracted for.

SCARCITY OF LABOR HOLDING UP CONSTRUCTION

It is said that scarcity of labor is one of the reasons for the delay in beginning construction work on the big new blast furnace to be erected as an addition to the Donora steel mill. A steam shovel is doing some work of excavation for this addition and it is reported that some labor is available, but of sufficient amount to push the project as the corporation desires. Two big brick houses have been erected in the upper yards of the steel company for the accommodation of those employed in this construction work. Fully equipped to take care of a large number of men.

STATE POLICE RAID GAMBLERS AT WEBSTER

State police raided a gambling place in Webster early Sunday morning and ten persons were arrested. All of the men arrested are being held under bail, and it is understood that the state police will prosecute the cases in the county court. Attention of the constabulary has been directed to gambling in this district, and it is said a plain clothes squad is operating in this section in order to break up the practice.

That Balloony Feeling After Meals

will quickly disappear if you swallow a few Dill's Digesters. Dill's Digesters assist nature in digesting food. You can pull up your chair at mealtime ready to eat anything without a thought about indigestion, heartburn, biliousness, if you will let Dill's Digesters take care of your stomach.

DILL'S Digesters

At all drug stores in the handy vest-pocket bottle.

THE DILL COMPANY, Norristown, Pa., Makers of Dill's Balm of Life

THE MEASURE OF A MAN

is not found in the amount of money that comes into his hands, but rather in the amount he is strong enough to retain.

If he spends beyond his income, he shows that even at manhood he has not grasped the lesson he should have learned in youth.

If he saves a fair proportion, he shows a fine regard for the fundamental law of financial progress.

Our certificates of Deposit are an ideal form of investment for savings
